DO YOU WANT MORE TARGETED TRAFFIC THAT CONVERTS?

Not all traffic is the same.

Organic traffic takes up the bulk of clicks on Google, about 70%.

You don't have to pay for Organic Traffic, unlike advertising.

The scary thing about advertising nowadays, you can never be sure when the price is going to go up. In some cases it can skyrocket.

This can leave you either scrambling for another option, or simply cutting your profits to keep the revenues coming in.

Having a steady and consistent way to convert prospects into customers is one of the most important things for any business.

When you do great White-Hat SEO, that is built for the long-term, you can expect to see consistent and reliable traffic from important money search terms.

These are terms that are directly related to a service or product you offer.

SEO ROADMAP

● **Discovery Call and/or 6 Question SEO Fact Checker**

You get started by booking a discovery call or simply jumping right in and filling in our simple 6 question fact checker.

<https://www.mayerdigitalagency.com/services/marketing/seo-google-page-rankings-in-90-days/step1>

● **Oboarding**

Once you have decided to proceed, you begin our onboarding process. This is fairly simple and gets you ready for the journey of better SEO.

● **Strategy, Research, Analysis, Technical SEO**

We do thorough strategizing, research, analysis, and technical SEO. We start doing the standard basics like meta descriptions, page speed score and other technical issues.

● **Implementation**

This is where we begin our full on war like realization of the strategy into victory. Basically we roll up our sleeves and get the work done.

● **Maintenance**

This is where we ensure everything runs smoothly. We also continue certain article and content creation to further the SEO spread.
